25X1

1. [] the National Defense Medical College in Mukden was at the old site of the former National Mukden Medical College and had a branch school in Harbin.¹ The Medical colleges at Yenpien (1693/6708)² and Ch'engte (N 40-59, E 117-52) were amalgamated with the Mukden school.

25X1

2. The personnel of the college included the following: ³

- a. WANG Pin (3769/2430), president of the college and chief of the Health Department of the Northeast People's Government, formerly president of a medical college in Yenai days.
- b. CH'EN Ying-ch'ien (7115/2019/6197) and CH'UEH Sen-hsin (7067/2773/6580), assistants to the president and responsible for the training of the medical corps and the management of the college.
- c. PAI Hsi-ch'ing (4101/1585/3237), assistant dean of the college and deputy chief of the Health Department of the Northeast People's Government.
- d. LU Nai-ch'un (0712/0035/5028), Communist Party Secretary at the college.

3. The organization of the college was as follows:

- a. The School of Medicine consisted of the departments of bacteriology, pathology, blood chemistry, biochemistry, and research. The dean was JEN Kuang-yuan (0117/0342/6678).
- b. The School of Surgery consisted of the departments of eye, ear, nose, and throat; x-ray; and dermatology. The dean was LI Chih-t'ing (2621/4160/0080).

- c. The School of Gynecology and Pediatrics consisted of the departments of gynecology and obstetrics, and pediatrics. The dean was YANG Yu-ying (2799/3768/3841).
 - d. The School of Public Health was under LI Shen-p'u (2621/4800/2833), dean.
 - e. The School of Pharmacy specialized in drug manufacture and the fundamental study of drugs. The dean was CH'EN Kuang-chao (6929/0342/3564).
 - f. The Pre-Medical and Pre-Clinical School consisted of the departments of anatomy, chemistry, and physical sciences. The dean was CH'EN Kuang-chao.
4. In addition to the various schools at the college there were the Bacteriology Research Institute, the Micro-organism Laboratory, the X-ray Rooms, the Medical Corps Training Class, the Pharmacist Training Class, and the Nursing Training Class. The total enrollment, including the training classes, ran to over 4,700. Each year there were more than 600 graduates, who were assigned to work in the various army hospitals, hospitals at mining and industrial centers, and provincial and municipal hospitals. All departments had laboratories and libraries. There were more than 100,000 volumes of books, more than 700 microscopes, and 58 x-ray machines. The entire compound occupied an area of 815,950 square meters, with 19 permanent buildings of several stories.
5. The National Defense Medical College Hospital⁴ had a total of 1,300 beds, occupied by soldiers wounded in Korea. There were also five field hospitals. Doctors and drugs for these hospitals all came from the medical college.
6. Soviet advisors were in all the schools, and Soviet medical and pharmaceutical experts numbered forty-nine. The chief Soviet advisor was Kitnov (Chi-t'e-no-fu, 1323/3676/6179/1133), head of general research.

Comments

- 1. [redacted] the Harbin Medical University at 25 Wen Miao (2429/1680) Street, Nan King (0589/1511), Harbin. 25X1
- 2. Probably Yenchi Border University at Yenchi (N 42-58, E 129-31). 25X1

Comments

- 3. According to a Chinese radio broadcast [redacted] WANG, CH'EN and PAI were officials holding similar positions at the China Medical College, and CHUEH Sheng-hua, formerly president of the China Medical College, was a vice-president. 25X1
- 4. Presumably the college hospital was on the grounds of the medical college.
